The “New and Improved” AASBCR® Website

September 2023

We’ve modified the website at [AASBCR.org](https://www.aasbcr.org) to focus on our mission of distributing valuable benefits information to AT&T retirees. Information is now easier to find, it’s easier to login, and easier to renew your membership.

- The new **Resources** tab lets you see all the information AASBCR® provides without logging in. You can see all the AASBCR publications, AT&T benefit links, CarePlus description, AT&T’s “Where to Go,” Frequently Used Numbers, and Important Links.
- **Topical folders** make it easier to find an AASBCR® bulletin on a particular subject. All the AASBCR® Publications are arranged in folders like, Healthcare, Pension, Social Security, and more.
- A new **Membership Renewal button** makes it easier to renew your membership every year
- The new **News** tab now has the link to the most recent AASBCR® bulletin. Soon it will also have the link to a new video on what to consider as you evaluate AT&T’s Medicare Advantage Plan vs. other Medicare insurance choices.
- Members can use our **Benefits Help** service with 24-Hour turnaround.
- A **simpler temporary password process** makes it easier to login when you have forgotten your password.
- You can link to **our private Facebook group** from the Resources tab.
- Members can also sponsor a non-profit for a **grant** from AASBCR®.

Give it a try! Just click [here](#) to access the website, and then check out all the new features.
